- Pt # 1. Wells.** The four wells located at this point are the main source of water supply for the water pumping station, Pt #2. Wells are of unknown depth and are in the mud flats on the east bank of the river. All of the drinking water for the city of Qyar comes from these wells.
- # 2. Pumping Station.** Water is pumped to the purification plant, Pt #7. There are a number of pipes above ground that connect the wells to the pumping station.
- # 3. Communist Party Estate.** An exclusive club for Communist Party officials located on an island in the Raba River. [redacted] they hold all of their parties and spend their summer vacations here.
- # 4. Port Facilities.** Barges had been seen tied to the wharf. The port has railroad tracks that tie into the main railroad lines.
- # 5. Shops (Wilhelm Fleck Qyar Vagon & Qap Qyar) -** for railroad car production. Personnel are given access only to the shop to which they are assigned and to enter any other building it is necessary to have a permit from the NKVD. This area is connected by rail into the main railroad yards.
- # 6. Shops (Wilhelm Fleck Qyar Vagon & Qap Qyar). -** for sleeper type passenger car production. Railroad cars are of the four axle type. The entire plant employs 15 thousand persons working in three shifts. In addition, the plant produces some motors and automobile parts. No production figures are available. This area is connected by rail to the main railroad yards. There is no tank production at this factory.
- # 7. Wilhelm Fleck Qyapromstov.** This plant is part of the Wilhelm Fleck Qyar Vagon & Qap Qyar and produces self-propelled railroad cranes.
